

## *New campaign helps students prepare for college*

The *3 to Get Ready!* statewide initiative, coordinated by the Ohio Department of Education, highlights three aspects of the college prep process:

- ◆ Ohio Free Application for Federal Student Aid (FAFSA) Completion Initiative
- ◆ Ohio College Application Month; and,
- ◆ College Signing Day.

The new campaign will help high school students apply for financial aid, submit college applications and select where they'll pursue their college education.

High schools, institutions of higher education and community partners interested in participating in the campaign can register online. Once registered, participants may request materials to support their local events, including student stickers, staff buttons and display posters. Those that support all three parts of the initiative will receive a special designation from the state.
