

INFOhio Educator Tools redesign launched

The INFOhio Educator Tools website has been expanded to include more than 40,000 free, teacher-approved lesson plans, best practices, articles, websites and other instructional materials designed to support personalized learning, project-based learning and the inquiry process.

Educator Tools leverages materials curated by Knovation, an Ohio-based company of educational professionals that utilizes a 127-point rubric to evaluate instructional materials. By adding resources from the Knovation Content Collection, INFOhio's Educator Tools gives Ohio educators free and easy access to learning resources from exemplary K-12 content publishers.

Teachers can find learning resources for all grades and subject areas to differentiate and personalize learning for Ohio's preK-12 students. Each day, INFOhio retrieves new standards-aligned instructional content.
